Inspection Comments

Upon arrival I met with Walker County Shelter Employee, Courtney Andes, to perform a routine inspection of the above listed facility. I walked facility with Ms. Andes inspecting premises, animals, and their enclosures.

Facility was clean and in good state of repair. The GDA Animal Shelter license is current with an expiration date on 01-31-2022. There were fire extinguishers on property. I walked office, kennel areas, intake areas, and storage areas. Animals were only housed in the kennel and intake areas during inspection. All food and supplies and appeared to be stored in an adequate manner. All enclosures appeared to be cleaned and sanitized. All animals appeared to have access to water during inspection. All animals appeared to be separated adequately and appeared to have space to move about freely. All animals appeared to be receiving humane care and appeared to be free of disease; or receiving treatment. There were approximately 31 cats under quarantine for URI symptoms. All cats have tested negative for Feline Panleukopenia.

Record keeping appeared to be accurate and up to date. I checked incoming and outgoing records, as well as rescue group authorization forms. Records are kept in digital and paper form. I did not witness euthanasia during inspection. I checked records regarding euthanasia during inspection, which appeared to be accurate and up to date. There was a working scale and stethoscope on site during inspection. There was a current DEA License posted with an expiration date of 07-31-2022, held by Dr. Benson, D.V.M. All euthanasia drugs were stored in a combination and key safe, in a room that can be locked.

Facility appeared to meet all requirements for a GDA Animal Shelter License during inspection. I will email inspection to Director Sadler and Commissioner Whitfield.

Pet Inventory: Cats – 37 Dogs – 83

*approximately 52 dogs are scheduled to go out on transport this Friday for rescue.
