18. Assignment of Contractual Rights: It is agreed that the successful proposer will not assign, transfer, convey, or otherwise dispose of a contract that results from an award stemming from this request for proposals or his right, title, or interest in or to the same, or any part thereof, without written consent of WCG.

satisfaction of both parties within the fifteen (15) calendar days and stated in writing, then the contract will continue uninterrupted. Failure to correct the matter will result in termination of this contract at the end of thirty (30) calendar days following the date of the initial letter of complaint.

23. Liquidated Damages: Contractor shall complete all work in the time stated as the “completion time.” In the event that the contract is not completed within the specified time, the Contractor agrees to default of contract and by reason of this default, contractor shall pay to WCG, not as a penalty, but as liquidated damages, in the sum of \$500 for each day of overrun in contract time.

24. Weather Days: Completion time will not be extended for normal bad weather. The time for completion as stated in the Contract Documents includes due allowance for calendar days on which work cannot be performed outdoors. For the purpose of this Contract, the Contractor agrees that he may expect to lose calendar days due to weather in accordance with the following table:

January – 22 days	April – 7 days	July - 8 days	October – 5 days

A weather day will also be defined as a day in which less than seventy-five percent (75%) of the normal labor and equipment force can operate for five (5) hours due to weather-related site conditions. Contract time will be extended by the number of days in which actual weather days in a given month exceed the number of weather days given in the table above.

Delays caused by acts of God, (e.g., fire, unusual storms, floods, tidal waves, earthquakes,) strikes, labor disputes, freight embargoes and shortages of materials shall be considered as unavoidable delays insofar as they prevent the Contractor from proceeding with at least seventy-five percent (75%) of the normal labor and equipment force for at least five (5) hours per day toward completion of the current controlling item on the accepted work schedule.

Should abnormal conditions prevent the work from beginning at the usual starting time, or prevent the Contractor from proceeding with seventy-five percent (75%) of the normal labor and equipment force for a period of at least five (5) hours per day, and the crew is dismissed as a result thereof, the Contractor will not be charged for a working

day whether or not conditions change so that the major portion of the day could be considered to be suitable for work on the controlling item.

For delays which the Contractor considers to be unavoidable he/she shall submit to the Community Development Director of Walker County complete information demonstrating the effect of the delay on the controlling operation in his construction schedule. The submission shall be made within three (3) calendar days of the occurrence claimed to be responsible for the unavoidable delay.

25. Changes to Contract: No change will be made to this contract except by written modification by WCG.
